Cindy Rodriguez
Parliamentarian

Vicente Calderon
Founder

August 16, 2022

I was extremely disheartened to read and hear about the deliberate targeting of, and attacks upon, our FBI and Department of Justice colleagues across our great country. These actions are simply unfathomable. The intentional attempted breach of the Cincinnati, Ohio FBI Field Office by an armed individual was shocking to hear about and incomprehensible to career law enforcement professionals. Additionally, it has been reported that the names and addresses of FBI and Department of Justice officials and their family members have been posted in social media platforms with specific intent to cause alarm or harm to these individuals. Serious threats are currently being investigated with some arrests occurring.

The National Latino Peace Officers Association (NLPOA) is adamantly opposed to any type of intentional targeting, doxing of, threats toward, or intentional violent actions directed toward any law enforcement agency or individual in the United States of America. Our profession exists to protect the public we have sworn to serve. It is now time to ask for the same type of protection toward our Brother and Sister FBI and Department of Justice colleagues.

The NLPOA stands firmly behind and supports the FBI and Department of Justice personnel who continue to do their duty to protect our great nation. Please join us in this statement of support.

Thank you in advance for your consideration.

Sincerely,

Kenneth Chavez
